**7. Q. HOW DOES THE HALEY'S CORKER HELP PRESERVE LIQUEURS?**

A. The Corker replaces corks and caps that stick and crack, which causes expensive contents to evaporate.

**8. Q. HOW LONG CAN I STORE CHAMPAGNE?**

A. Up to four days under refrigeration. The effervescence of sparkling wines tend to slow the pour down, so the Corker works best as an airtight stopper on a partially consumed bottle. This also prevents the effervescence from blowing off the Corker on a full bottle. Now you don't have to wait for a special occasion to enjoy champagne. Go ahead and open it to celebrate your everyday events!

**9. Q. HOW DOES THE HALEY'S CORKER HELP PRESERVE IMPORTED OLIVE OILS AND VINEGARS?**

A. The Corker replaces corks that swell, split, and become oily and unsanitary after usage. Because of the built-in screen, the Corker also helps to keep the herbs and spices in the bottled liquid for future flavoring.

**10. Q. WILL THE HALEY'S CORKER HELP PREVENT FRUIT FLY PROBLEMS?**

A. Yes. The Corker helps prevent fruit flies from entering wine and sweet liqueurs to which they are attracted. This is a special benefit for establishments that serve alcohol. When Liquor Commissioners conduct inspections, if a certain percentage of the bottles are found to be infested with fruit flies, the entire bar contents must be purged -- an extremely expensive penalty!
